Latex paint, used motor oil, automotive batteries, and propane tanks are not accepted at household hazardous waste collection events. Year-round collection is available. Once latex paint is hardened, it may be thrown in the dumpster.

For more information about hazardous waste call Grant County Solid Waste at 509/754-6082.

Reduce Your Waste!

Recycling is great, but reducing waste in the first place is even better. Waste reduction saves disposal costs, protects our resources and saves landfill space. Most of all, you can decrease how much you dispose of even with limited recycling opportunities. The following are ideas on how to reduce waste and make a difference:

- Use a reusable water bottle.
- Choose items with the least amount of packaging or buy items in bulk quantities if you are certain you will use all of the product.
- Remove your name from junk mail lists. Mail or fax the address label back to the company that sent the mail and ask to be removed from the mailing list. Don't fall for "free drawing" forms at stores or restaurants. They usually just want your address to send junk mail.
- Leave grass clipping on the lawn instead of bagging them.
- Donate unwanted items to Goodwill or a local thrift shop. Have a yard sale or give items to a friend or relative.
- Cut back on the number of subscriptions to newspapers and magazines. Instead, share subscriptions among family or friends.
