

GRANT COUNTY, WASHINGTON  
NEEDS ASSESSMENT  
REQUEST FOR PROPOSALS

Grant County is seeking to contract with a qualified firm for the purpose of conducting a community mental health, substance abuse, developmental disability, and domestic violence/sexual assault needs assessment for Grant County, Washington.

Grant County will enter into a professional services agreement with an individual and/or firm to be selected as part of this RFP process. The purpose of the study is to determine current needs, strengths, and gaps in the local mental health, substance abuse, developmental disability, and domestic violence/sexual assault systems with the intention to aid community stakeholders in understanding priority areas that should be addressed to create systems that meet the needs of Grant County. Additionally, information gathered through the process will serve as an educational tool regarding the types of services provided in the region. Ultimately, the data from the needs assessment will serve to improve the quality of mental health, addiction, developmental disability, and domestic violence/sexual assault services provided to members of the community. The study is not intended to be an evaluation of existing service providers, but rather an overall assessment of community needs and strengths related to these topics.
